

The Kentucky Board of Dentistry
Recommended Definition of Dental Records
as it relates to KRS 422.317

The following constitutes a Dental Record of a Patient:

1. Copy of personal information.
2. Copy of medical history.
3. Copy of most recent dental charting and periodontal examination, if applicable.
4. Copy of most recent full mouth radiographic survey or panograph, or a detailed written report on radiographic findings in lieu of physical radiographs, if applicable.
5. Copy of most recent bite-wing radiographs or a detailed written report on radiographic findings in lieu of physical radiographs, if applicable.
6. Copy of all pathology or medical laboratory reports, if applicable.
7. Copy of all anesthesia records, if applicable.
8. Copy of initial orthodontic diagnostic records including pretreatment study models, photographs, cephalometric radiographs and cephalometric analysis, if applicable, or a detailed written report in lieu of the physical records.
9. Copy of correspondence with consultants or specialists, if applicable.
10. Copy of treatment and progress notes.
11. Financial records associated with patient's treatment.
